The Organizing Committee requests to be guided by the following rules when making reports:

The texts of reports up to 5 full pages of typewritten text should be typed in MSWORD text editor, Times New Roman font, line spacing 1, character size 14, all margins - 20 mm, with width alignment. The indentation at the beginning of the paragraph is standard (1.27 cm), do not place hyphenations, do not put page numbering.

The title of the report is printed in capital letters in bold, centered, without a dot. After the title of the report, the author's surname, first name, patronymic, course, full name of the organization, and e-mail are placed in lowercase letters after one interval in the center. Below is the surname, initials, academic degree, position of scientific supervisor, full name of organization. The main text begins at one interval. At the end, after one interval, a list of references, which is drawn up in the form of a general list follows. The numbering of the literature is continuous. References in the text to literature are placed in square brackets at the end of the sentence.

The text of the report is not subject to editing and is the original. The collection of conference materials will be typed by direct copying. Therefore, we draw the attention of the authors to the need to provide the article in a carefully edited form in compliance with all the above requirements.
